You should always consult and comply with the regulations of the appropriate local government authorities.”

IMPORTANT: Do not make any purchase or shipping decision relating to any dual use product based solely on this chart. This chart is provided as a general summary of various different requirements set forth in multiple regulations and statutes. It is not intended to provide any definitive answer as to the exportability of any particular product nor is it intended to be relied upon for any purchase or shipping decision. In addition, it is not intended to be a complete listing of all provisions, regulations or statutes relating to the sale of AXIS dual use products. Axis will make all decisions, including approvals of orders, shipping instructions and license requirements based upon an independent review of the facts and circumstances of each order. Therefore, this chart should not be relied upon in any way other than for the purpose that it is intended which is to provide potential customers with a general overview of the regulatory framework relating to Axis dual use products. You are strongly encouraged to seek your own counsel for advice regarding the export, re-export, re-transfer, and import of any dual use product before making a purchase decision. Please note that Axis Communications AB is not liable for re-exporting products to end customer. It is the responsibility of the buyer from Axis to ensure proper licensing and authorizations for export or re-export. Axis will not accept any liability on the re-export.

Annex I

Export Guidelines for Thermal Cameras (EU)

Axis Communications AB sells thermal imaging products based on sensitive technologies that are controlled for export, re-export and re-transfer by the EU. **Customers shall always provide destination country/end-use/end-user information at the time of purchase, in order for Axis to make proper export licensing determinations.**
